### **Feel The Rain**

I'll finish this last note  
Like it's done for now  
You've replaced little things  
I'd do without

To see you everyday  
In every faint smile  
Turns hours into seconds  
And makes it all worth while

Chorus:

And I will wait  
Till the end of time  
Will never feel the rain  
Till I make you mine  
Will always wait  
In a special place  
Confess my mistakes  
Till I feel your Rain  
Feel your Rain  
Feel your Rain

I won't rest  
It's you I adore  
You keep on saying no  
And I just want you more

Can I be  
Brilliant as you are?  
If it's over  
There'd be a curse in every star.

Chorus:

And I will wait  
till the end of time  
Will never feel the rain  
Till I make you mine  
Will always wait  
In a special place  
Confess my mistakes  
Till I feel your Rain  
Feel your Rain  
Feel your Rain.
